Maths for NQTs

Key stage 1— Tuesday 23rd January 2018
Key Stage 2— Thursday 25th January 2018
09:30 - 15:30
Hopwood Hall College, Rochdale Campus

Trainer: Laurence Hicks (Sense of Number)
Audience: Newly Qualified Teachers

The main theme for this training day is on 'Engagement and challenge' in primary maths

Key themes –

- 'Outstanding' teaching and learning in the training year vs the NQT year…are they the same thing?
- Exemplification of OFSTED 'Outstanding' descriptors for primary mathematics
- Planning for 'challenge' through developing problem solving and reasoning skills – breadth and depth leading to 'Mastery'
- Establishing solid, effective teaching routines in primary mathematics raising the bar for learning facts and tables. Ideas for teaching.
- Effective use of models and images
- Assessment of children's calculation skills and preferences – evidencing continuity and progression
- Implementing the school calculation policy and interpreting the new NC approach to calculation
- New emphases in curriculum content and transition issues over the next two years.
- Accountability, gathering evidence of pupil progress
