

Improving Outcomes in Mathematics

Friday 15th March 2019

09:30—16:00

Hopwood Hall College, Rochdale Campus

Trainer: Anna Lucas (Lucas Training and Consultancy)

Audience: Early Years & Primary

This practical hands on workshop will focus on Mathematics in the EYFS.

It will consider optimum learning for Mathematics in the indoor and outdoor learning environment with highly skilled adults who play with children. Daily experience, exposure and enjoyment of key mathematical skills that form the foundations for children to become successful mathematicians will be explored through maximising the potential in the provision and stepping away from the blue table.
