

# Visible Learning

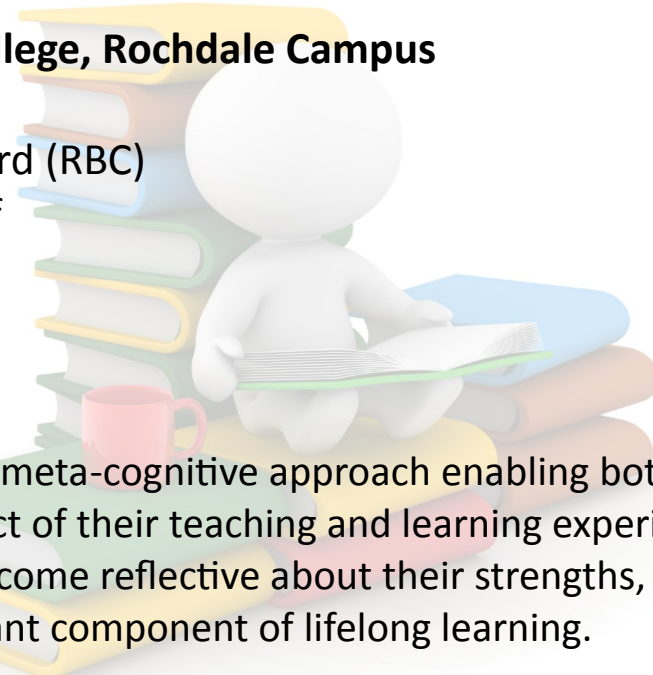

**Tuesday 5th June 2018**

**13:00 - 16:00**

**Hopwood Hall College, Rochdale Campus**

**Trainers:** Kelly Ward (RBC)

**Audience:** All staff

Visible learning is a meta-cognitive approach enabling both teachers and pupils to recognise the impact of their teaching and learning experiences. For pupils, it enables them to become reflective about their strengths, difficulties and learning styles as an important component of lifelong learning.

This course will provide theories underlying visible learning and introduce practical strategies to enable teachers to create visible learning environments and opportunities to help raise attainments.
