

Analysing your Attainment & Progress Data in FFT Aspire

Wednesday 16th May 2018

Secondary Session - 10:00 - 12:00

Primary session - 13:00 - 15:00

Hopwood Hall College, Rochdale Campus

Trainer: Gary Limb (FFT Education)

Audience: Senior Leaders / Data Managers

Initially places are limited to one per school. For staff to be added to the waiting list please email carly.shand@rochdale.gov.uk

This two-hour overview session will look at the FFT Aspire system in depth. Participants will work from their own school's FFT School Dashboard, focusing on self-evaluation and school improvement, implementing effective target setting and identifying gaps in performance by subject and pupil group.

It is essential that delegates have a copy of their school's FFT Aspire School Dashboard.

Participants will:

- Be led through each of the reports contained in their FFT Aspire School Dashboard.
- Have explained the key features of each report and how the live system can enhance the analysis
- Hear about how their dashboard can be used to support school self-evaluation and development planning
- Briefly see how the target setting and student explorer modules can support development plans
